A NEW ERA IN AVIATION COATINGS

EFFICIENCY, DURABILITY & SUSTAINABILITY

With over a century of coatings expertise, PETER/LACKE brings automotive OEM innovation to aviation: delivering sustainable, efficient processing and durable, high-performance coating solutions.

SERVICE & CUSTOMER FOCUS

Global reach, local support. Agile, flexible and responsive - from OEMs and airlines to MROs and designers, we deliver tailored, color- & performance perfect coating solutions with short lead times.

NEXT-GENERATION AEROSPACE COATINGS

FAR/CS/JAR 25.853-compliant decorative aircraft cabin interior coating solutions, including chrome-free corrosion protection for aluminum structures - utilizing the latest generation of raw materials, driving a greener, more efficient future in aviation.

ABOUT US

Founded in 1906, PETER/LACKE began as a regional furniture coatings supplier and has grown into a global leader in coating systems for Automotive, Aviation, Lifestyle, and Consumer Packaging industries.

Still family-owned and led by David N. Peter (5th generation), our company continues to combine tradition, innovation and responsibility.

AVIATION COATINGS

At PETER/LACKE, we're driving innovation and sustainable aviation coatings.

By combining advanced raw materials, cutting-edge technologies, and close collaboration with OEMs and industry partners, we create coating systems that set new standards in performance and environmental responsibility.

OUR SOLUTIONS

- Aircraft Cabin Interior Coatings – Lightweight, durable and compliant with FAR/CS/JAR 25.853
- Specialty Coatings – e.g. Chrome-Free Solutions for structural components and corrosion protection

OUR FOCUS

- Ultra-lightweight compared to legacy coating systems
- Faster, easier, and more efficient application processes
- Automation-ready
- Reduced overall material consumption
- Significantly lower VOC emissions
- Formulated with more sustainable, locally sourced raw materials
- Fully compliant with OEM specifications
- Advanced color development expertise, aligned with global design trends
- Close customer collaboration and bespoke solutions
- Agile, responsive, and expert technical service

NOTES:

GLOBAL EXPERTISE, LOCAL SUPPORT

Our aviation coatings experts in Europe, Asia, and the Americas are ready to support your next project.

We partner with OEMs, airlines, design agencies, aircraft owners and MROs to help realize your sustainability and performance goals.

A NEW ERA OF AVIATION COATINGS — WHERE EFFICIENCY, DURABILITY, SUSTAINABILITY AND AESTHETICS TAKE FLIGHT.

Be sure to visit us at the next Aircraft Interiors Expo (AIX) in Hamburg!
